

Germany & India – A shared challenge, as shared opportunity

Both **Germany and India** face **unique challenges**, but instead of struggling alone, we can **work together** to create a **powerful solution**. By combining Germany’s **structured business environment** with India’s **talent and innovation**, we can unlock new opportunities for **students, businesses, and the global economy**.

I. Motivation

Germany’s Challenge	India’s Challenge	How We Can Solve It Together
<p>✗ Fachkräftemangel (Skilled labor shortage) – Germany needs more professionals in key industries.</p>	<p>✗ Limited global career access – Many talented Indian graduates don’t know how to navigate international job markets.</p>	<p>✓ India has a large, skilled workforce ready to contribute, education & certification to help them enter the German and EU job market.</p>
<p>✗ Lack of Future-Oriented Thinking – Many businesses in Germany are risk-averse and struggle to innovate.</p>	<p>✗ Job Market Saturation – Even highly skilled students in India face intense competition for local jobs.</p>	<p>✓ Indian students bring fresh perspectives & problem-solving skills, fueling Germany’s innovation ecosystem.</p>
<p>✗ Economic Pessimism – Many German businesses hesitate to invest in new talent & technology.</p>	<p>✗ Commercialized education market – Many students struggle with expensive courses that offer little real value.</p>	<p>✓ By offering a high-quality, nonprofit education initiative, we provide genuine skills development instead of overpriced, commercialized.</p>
<p>✗ Aging Workforce – Germany’s workforce is shrinking, creating a gap in skilled labor.</p>	<p>✗ Lack of industry-relevant skills – University education in India is often theory-based, missing practical business and digital skills.</p>	<p>✓ Our industry-focused courses equip students with the soft skills, business skills, and digital expertise needed to succeed internationally.</p>
<p>✗ Slow Digital Transformation – Many German businesses struggle with digitalization and need tech-savvy professionals.</p>	<p>✗ Corporate Readiness Gap – Many students in India lack training in soft skills, leadership, and intercultural competence, making it harder to work in global companies.</p>	<p>✓ India’s tech expertise & adaptability help German companies accelerate digital transformation, while German experts train Indian students in corporate skills & global business standards.</p>
<p>✗ Need for Fresh Innovation & Entrepreneurship – Germany needs more creative thinkers and startup energy to remain competitive.</p>	<p>✗ Startup Ecosystem Needs Global Expansion – Many Indian startups have strong potential but lack the international connections to grow.</p>	<p>✓ Germany’s business environment provides stability & funding opportunities, while India’s startup culture brings fresh ideas & risk-taking energy. Together, we create a strong entrepreneurial ecosystem.</p>

II. Initiative

“Make It in Germany & EU”

Empowering Students Through Education & Intercultural Exchange as a unique opportunity for Indian Students & Education Providers!

▶ Initiative:

In collaboration with **Onstralytics**, the **Digital Business Club e.V. (DBC e.V.)** is proud to present “**Make It in Germany & EU**”, an initiative dedicated to providing **world-class education** to students across India.

▶ Mission:

To bridge the gap between Germany and India by offering **high-quality courses, training, and certification** led by expert tutors as well as market, digital and business experts from Germany.

▶ Result:

As a **nonprofit organization**, we are committed to ensuring that students, universities, and education providers benefit from **structured, career-oriented learning paths** that open doors to global job opportunities.
